

**What if  
every street  
had trees?**

**Imagine a  
climate  
resilient  
Louisville.**

**Urban trees help fight  
climate change. They...**

**Take in CO2**

**Intercept stormwater**

- Provide shade**

**Reduce energy usage**

**Improve mental health.**

**Join the #ClimateConversation**

**What if  
we all joined  
the climate  
conversation?**

**Imagine a  
climate  
resilient  
Louisville.**

**We can imagine a  
better future together.**

**Join the #ClimateConversation**

**What if we  
could name 5  
native trees?**

**Imagine a  
climate  
resilient  
Louisville.**

**The average American  
can name over 100  
corporate logos and  
only 10 plants.**

**- Robin Wall Kimmerer**

**You can change that.**

**Join the #ClimateConversation**

**What if we  
drove less?**

**Imagine a  
climate  
resilient  
Louisville.**

**1/3 of the world's gas emissions are because of vehicles. Let's work together to make Louisville better for biking, walking, and public transit.**

**Join the #ClimateConversation**

**What if we  
cared for  
trees like  
they care for  
us?**

**Imagine a  
climate  
resilient  
Louisville.**

**Trees are more likely  
to survive when they  
are properly mulched  
and pruned.**

**Join the #ClimateConversation**

**What if we  
supported  
our local  
farmers?**

**Imagine a  
climate  
resilient  
Louisville.**

**Local food builds  
community, reduces  
resource consumption,  
and preserves our  
natural lands.**

**Join the #ClimateConversation**

**What if we  
all planted a  
tree today?**

**Imagine a  
climate  
resilient  
Louisville.**

**You can help  
maintain and build a  
more equitable tree  
canopy.**

**Join the #ClimateConversation**

**What if we  
had more  
community  
gardens?**

**Imagine a  
climate  
resilient  
Louisville.**

# **Community gardens...**

- Increase fresh foods**
- Support food security**
- Improve mental health**
- Provide educational opportunities for the community.**

**Join the #ClimateConversation**

**What if our  
yards were  
pollinator  
habitats?**

**Imagine a  
climate  
resilient  
Louisville.**

**Let's create pollinator  
friendly habitats to  
support local food and  
flowering plants.**

**Join the #ClimateConversation**

**What if we  
took care of  
our soil?**

**Imagine a  
climate  
resilient  
Louisville.**

**Soils provide plants  
with essential  
minerals and nutrients  
for them to grow.**
